**Declaration:** 5-15% non-ionic surfactants. <5 % cationic surfactants. <5 % EDTA

**Cleaning of tools:** Soap and water immediately after use

**Storage:** 1 year if unopened and stored at 20° C. Not to be exposed to temperatures below 0° C.

---

#### DIRECTION FOR USE

Junckers Sylva Dissolver should be diluted with water before use. Adjust the scrubber dryer machine to normal walking speed, 4-5 km/hour. Fill tank with solution.

Apply diluted solution to an area so that it can work for maximum 3 minutes before vacuuming.

Spot areas of hard to remove resin can be wetted in concentrated Junckers Sylva Dissolver before scrubber drying. If the resin has not been removed during the first pass, repeat the cleaning procedure above and let the floor dry completely before further treatment.

When the handball resin has been removed from the sports floor, clean with Junckers Sylva Sport Cleaner according to the product recommendations.

Always wipe up water spills quickly using a dry cloth to prevent water damage to the floor

---

#### PRECAUTIONARY MEASURES

Before use of the product, read the label on the container carefully and observe the advised precautionary safety measures.
