SOLID OAK HERRINGBONE

A CLASSIC DESIGN FOR BOTH TRADITIONAL AND CONTEMPORARY INTERIORS

Some designs never go out of style. From classical European architecture to contemporary Scandinavian interiors, the herringbone pattern continues to define interior elegance.

A herringbone wooden floor is made up of rectangular wood blocks, called staves, arranged in a zig zag pattern which loosely resembles fish bones, hence the name. The strong geometric pattern combined with the natural grain patterns inherent in the wood create a balance and rhythm – one of the reasons why parquet floors are so popular.

Made in solid oak, a Junckers oak herringbone floor is a design statement in its own right as well as a long-lasting investment. Solid hardwood floors last for generations with the right care, it is not unheard of to find wooden floors that are over a hundred years old, still looking great and providing a healthy indoor climate.

A FLOOR THAT WILL STAND THE TEST OF TIME

OAK HERRINGBONE

Thickness x width: 16 x 68 x 408 mm

Surface: Untreated

The HARMONY grade has a natural look with some colour and structural graining variation between the individual staves. Medium sized knots and hairline splits occur to some degree. Sapwood occurs.

PERSONALISE WITH COLOUR

– JUNCKERS ECO 2K FLOOR OIL

You can add both colour and protection to your floor with ECO 2K Floor Oil – a high-quality, water-based, two-component oil developed to intensify the beauty of the timber and ensure long-lasting durability.

With ECO 2K Oil, you can customise your solid wood floor in a range of elegant colours including, Antique Oak, Black, Clear, Dark Coco, Driftwood Grey, Harvest Oak, London Grey, Nordic, Quiet White and White.

Each tone is carefully curated to complement the natural beauty of the wood, from subtle Scandinavian neutrals to rich, expressive dark shades.

The oil penetrates deeply into the surface, enhancing the natural grain pattern of the wood delivering a breathable, wear-resistant finish. It is low in odour, fast drying, and ideal for both residential and commercial use – combining visual impact with environmental responsibility.

CHOOSE FROM TEN NATURAL-LOOKING COLOURS

UNFINISHED BY DESIGN

– FINISHED TO YOUR VISION

Our Oak Herringbone is delivered unfinished, allowing for bespoke surface treatment. This offers full design control, whether you are looking for a subtle, matt appearance, or a rich, oiled finish.

We offer a complete range of professional surface treatments designed to enhance the natural qualities of the wood and ensure long-term protection:

LACQUER

A durable, elegant finish with excellent wear resistance. Available in Ultra Matt, Matt, and Silk Matt.

OIL

Deepens the natural tones of the wood; available in a variety of colours. Can be combined with one of our water-based lacquers for added protection.

HARDWAX OIL

Quick-drying with high water resistance. Scratch-resistant and easy to maintain.

The treatments allow you to create a floor with a distinctive, tailor-made look.
